

Objective

To achieve the best possible results by making all possible effort with innovative knowledge and technical skills while keeping honesty and punctuality at a higher priority. My career should be a means to make my life purposeful. I want to make an indelible and distinct place for myself by the effective application of my life skills in an ethical manner.

Work Experience

ZEALOUS SYSTEM

2019 - NOW

Software Developer

Currently Working as a Full Stack Developer and I'm here also responsible for managing all the Website and API development.

GANGA SERVICES

2017 - 2019

Senior Project Manager

I Developed the website and mobile app for this organisation. It was an e-marketing based company which also provides services to use to make their life easier. This company takes a request from his customer and deliver goods and services to them. Here I worked on a hybrid mobile app and Laravel based website. It also takes the website and software contract from customers and delivers the website/software according to their requirement on time.

SARKARIFORMBHARO

2016 - 2017

Senior Developer

I had done a project here and learned many things like how to manages resource and people to achieve the goal in the best way. Here all the project was all around the Laravel Based website development. Here I also learned how to work on the running real-life based projects in the best way.
